Sub Zero UC

Hi all, First post here, apologies if it's long but I'll try and get all relevant info out there in my first post. I'm

having issues with a brand new UC-15i install in a home bar. The unit starts normally and begins dropping cubes within 20-30 mins, but the bin never gets much past 1/3 full, even after days, and the heat coming from the bottom of the unit is HOT (140-160 degrees at kick plate).
